

## Application for Professional Membership

I am applying for ACPBC professional membership and registration as indicated below: (select **one** only)

- ☐ Professional Member and Professional Technologist in Chemistry (P.T.Chem.) Registration
- ☐ Professional Member and Professional Technologist in Chemistry (P.T.Chem.) Registration: transfer from R.T.Chem.
- ☐ Professional Member and Registered Technologist in Chemistry (R.T.Chem.) Registration

### Application Check List

**Please complete all sections of the form and the checklist below.**  
**Incomplete applications may be assessed additional processing costs.**

- ☐ **Post-Secondary Education** Complete page 2 **and provide copies of degree transcripts.**

The minimum educational qualification for professional membership is a Diploma in Chemical Technology (or equivalent).

- ☐ **Chemistry-Related Work Experience** **Attach a current CV describing chemistry work experience**

The minimum period required for R.T.Chem. is two years of full-time chemistry-related work experience post-diploma.  
The minimum period required for P.T.Chem. is seven years of full-time chemistry-related work experience and additional documentation of competency in chemistry. The Registrar can provide the details of the documentation required.

- ☐ **Fees attached** ☐ Cheque ☐ Money Order ☐ Visa (use Credit Payment form)

The non-refundable application fee (\$50) plus annual dues ( P.T.Chem. \$175; R.T.Chem. \$75) requires the amount of **\$225** for **Professional Technologist in Chemistry** applicants **OR \$125** for **Registered Technologist in Chemistry** applicants. Pay online at [www.pchembc.ca/new-registration/](http://www.pchembc.ca/new-registration/), or send a cheque payable to the Association of the Chemical Profession of BC.

### Declaration of Applicant

I hereby certify that the foregoing statements are correct. I have provided verification of my education and work experience and will provide additional verification if required.

Signature

Date

### Declaration of Reference

 The person providing the reference must be a registered professional.

I hereby certify that the applicant is known to me and is of good character. I recommend acceptance of this application.

Name (please print clearly)

Send the completed application form, required documents and payment to the **ACPBC Registrar,**  
**c/o Department of Chemistry, University of Victoria, Box 3065 STN CSC, Victoria BC V8W 3V6**

**Note:** In British Columbia, only professional members will be recognized as qualified professionals in statute and regulation by the government when such recognition is established.

# Association of the Chemical Profession of British Columbia

## Education summary

Registration as P.T.Chem. or R.T.Chem. in British Columbia requires the educational qualification equivalent to a two-year diploma in Chemical Technology or its equivalent, normally consisting of at least eight one-term chemistry courses spread across the chemistry sub-disciplines where a term is typically 3-4 months.

**You MUST provide a copy of your degree transcripts to support the summary data on this page.**

### Part 1: All applicants complete this section

Diploma granted:	Year:	Institution:
Primary qualification:		
Other degrees:		

### Part 2: Applicants with a diploma from a program accredited by the Canadian Council of Technicians and Technologists ([www.cctt.ca](http://www.cctt.ca)) need not complete this part. All others please complete this section as fully as possible.

Transcripts differ considerably between institutions. To assist in the review of your qualifications please use the table below to summarize the duration of lecture and lab courses taken in your undergraduate degree.

#### Core courses

Course number/title	Number of terms	Labs	Course number/title	Number of terms	Labs
General and introductory chemistry			Inorganic chemistry		
Analytical chemistry			Organic chemistry		
Biochemistry			Physical chemistry		

#### Additional courses

Course number/title	Number of terms	Labs	Course number/title	Number of terms	Labs

Additional training
